GEOTOOL ANTENNA MOUNT AND INSULATOR PRICE LIST

This chart shows dimensions and a Part Number for each mount, based on the make model and year of the vehicle, and the type of antenna mounting hardware on the top of the mount. All antenna mount prices are \$74.95. All of our currently available antenna adapters are shown in the photos at the bottom of this page. Custom adapters can also be made. Just ask. I use a lathe to make most parts, but I don't have a mill.
